PETITION FOR SPECIAL RELIEF

Bright House Networks, LLC, (“Bright House Networks” or the “Company”), pursuant to Sections 76.7 and 76.907 of the Commission’s rules,¹ requests that the Commission find that it faces “effective competition” in the above-referenced Florida franchise areas (the “Franchise Areas”).

The Communications Act of 1934, as amended (the “Act”), and the Commission’s rules provide that cable television rates may be regulated only in the absence of effective competition.² Cable operators are entitled to demonstrate that effective competition exists on a franchise-by-franchise basis.³ When a cable operator demonstrates that effective competition is present within a franchise area, cable rates in the affected area are no longer subject to regulation.⁴

¹ 47 C.F.R. §§ 76.7 and 76.907.

² 47 U.S.C. § 543(a)(2); 47 C.F.R. § 76.905(a).

³ 47 C.F.R. § 76.907.

⁴ See *Implementation of Sections of the Cable Television Consumer Protection and Competition Act of 1992, Rate Regulation*, 8 FCC Rcd. 5631, 5664-5665 (1993) (“Rate Order”).

Under the “competing provider” test set forth in Section 623(1)(1)(B) of the Act and Section 76.905(b)(2) of the Commission’s rules (the “Competing Provider Test”), a cable system will be deemed subject to effective competition if the franchise area is:

- (i) served by at least two unaffiliated multichannel video programming distributors, each of which offers comparable programming to at least 50 percent of the households in the franchise area; and
- (ii) the number of households subscribing to multichannel video programming other than the largest multichannel video programming distributor exceeds 15 percent of the households in the franchise area.⁵

As demonstrated below, the Competing Provider Test is satisfied in each of the Franchise Areas – New Port Ritchey, San Antonio, St. Leo, and Zephyrhills. Two unaffiliated MVPDs serve over 50 percent of the Franchise Areas’ households with comparable programming and the aggregate penetration rate for all “competing providers” exceeds 15 percent in the Franchise Areas.⁶ Accordingly, Bright House Networks requests that the Commission issue an order finding that Bright House Networks is subject to effective competition under the Competing Provider Test in the New Port Ritchey, San Antonio, St. Leo, and Zephyrhills Franchise Areas.

I. More Than Two Unaffiliated MVPDs Offer Programming Comparable to Bright House Networks to Over 50 Percent of the Households in the Franchise Areas.

The first prong of the Competing Provider Test requires that a franchise area must be served by “at least two unaffiliated multichannel video programming distributors...”⁷ This

⁵ 47 U.S.C. § 543(1)(1)(B)(i) and (ii); 47 C.F.R. § 76.905(b)(2)(i) and (ii).

⁶ In the San Antonio, and St. Leo Franchise Areas, Bright House Networks is relying solely on DBS subscriber data. As explained below, in the New Port Ritchey and Zephyrhills Franchise Areas, the competing penetration figure includes subscribers from local MVPD competitor Verizon, as well as from the two major DBS providers.

⁷ 47 U.S.C. § 543(1)(1)(B)(i); 47 C.F.R. § 76.905(b)(2)(i). Section 602 of the Communications Act of 1934, as amended, defines “multichannel video programming distributors” to include cable operators, as well as DBS and MMDS providers. *See* 47 U.S.C. § 522(13).

requirement is easily satisfied, because the two major direct broadcast satellite providers (DirecTV, Inc. and Dish Network, Corp.) (“DBS Providers”) are unaffiliated with Bright House Networks and “offer” service to more than 50 percent of the households in Bright House Networks’ Franchise Areas.

Service of an MVPD will be deemed “offered” when it is both technically and actually available.⁸ The Commission has determined that DBS service is presumed to be “technically available” throughout the country due to its nationwide satellite footprint.⁹ Bright House Networks’ Franchise Areas are well within the satellite footprint of DirecTV and Dish Network. Thus, both DirecTV and Dish Network are “technically available” in the Franchise Areas.

DBS service is presumed to be “actually available” if households in a franchise area are made “reasonably aware” that the service is available.¹⁰ The Commission has stated that “a party may use evidence of penetration rates in the franchise area (the second prong of the competing provider test ...) coupled with the ubiquity of DBS services to show that consumers are

⁹ *See MediaOne of Georgia, Inc.; Petition for Revocation of the Certification of Gwinnett County, Georgia*, 12 FCC Rcd. 19406, ¶ 5 n.16 (1997) (citing *Rate Order*, at 5660-5661).

¹⁰ *See Rate Order* ¶ 32 (citations omitted). *See also Charter Communications – Fourteen North Carolina Communities*, 19 FCC Rcd. 7003, ¶ 4 (2004).

reasonably aware of the availability of DBS service.”¹¹ The same reasoning applies here.

DirecTV and Dish Network are among the largest MVPDs in the nation.¹² With approximately 34 million subscribers nationwide,¹³ comprising nearly 34 percent of all MVPD subscribers,¹⁴ ubiquitous advertising, and the substantial DBS penetration figures in the Franchise Areas, it is clear that consumers in the Franchise Areas are “reasonably” aware of the availability of DBS competitors.¹⁵ Accordingly, both DirecTV and Dish Network are presumed to be “actually

Thus, the Commission has not required the production of advertising to demonstrate that households in the franchise area are “reasonably aware” of the availability of DBS service. See *Bright House Networks, LLC Petition for Determination of Effective Competition (Lake Alfred and Dundee FL)*, 22 FCC Rcd. 4390, ¶ 6 (2007) (“Over more than ten years, we have made hundreds of findings that households in particular franchise areas are reasonably aware that they may purchase DBS services based on localized evidence. These accumulated showings amount to substantial evidence that households in all franchise areas are reasonably aware that they may purchase DBS services. In at least one earlier reported decision, we found households in a franchise area to be reasonably aware that they may purchase DBS service solely based on evidence of DBS's nationwide growth and local subscriptions, without reference to advertising or other promotion.”) (“*Bright House Networks –Florida*”).

available” in the Franchise Areas, and are offered to over 50 percent of the households in the Franchise Areas.

The Competing Provider Test also requires that the programming offered by the competing provider must be “comparable” to the programming offered by the cable operator.¹⁶ The Commission’s rules define comparable programming as “at least 12 channels of video programming, including at least one channel of nonbroadcast service programming.”¹⁷ The Commission has repeatedly recognized that the DBS Providers offer comparable programming under the Commission’s Competing Provider Test.¹⁸ Each of the DBS Providers offer well over 100 video channels, most of which are non-broadcast services.¹⁹ And, as shown in the attached channel line-up, Bright House Networks’ programming service offerings in the Franchise Areas are substantially similar to the DBS Providers’ programming services.²⁰

Based on the above facts, Bright House Networks has satisfied the first prong of the Competing Provider Test.

II. The Competing Providers Serve Greater Than 15 Percent of the Households In Bright House Networks’ Franchise Areas.

The second prong of the Competing Provider Test requires that the subscriber base of competing MVPDs exceeds 15 percent of franchise area households. The Commission’s rules provide that once the first prong of the Competing Provider Test is satisfied (as it is with the

¹⁷ 47 C.F.R. § 76.905(g).

¹⁸ See, e.g., *Comcast Cablevision of Maryland, Inc., Petitions for Effective Competition*, 19 FCC Rcd. 7130, ¶ 4 (2004) (“We find that the programming of DBS providers satisfies the Commission’s program comparability criterion because DBS providers offer more than 12 channels of video programming, including more than one non-broadcast channel.”).

DBS service offerings in this case) the subscribers of *all* qualifying MVPD's count toward the 15 percent penetration figure necessary for a determination of effective competition (even if they are not available themselves to more than 50 percent of local households).²¹ Verizon offers competing cable service in the communities of New Port Ritchey and Zephyrhills.²²

Accordingly, the Competing Provider subscriber tallies presented in this Petition for these two Franchise Areas include subscribers from Verizon,²³ as well as from the two major DBS providers.²⁴ The resulting penetration figures far exceed the 15 percent threshold in each of the four Franchise Areas:

New Port Ritchey	28.11%
San Antonio	18.96%
St. Leo	26.83%
Zephyrhills	35.04%

Because DBS providers track their subscribers according to the zip codes where each subscriber resides, rather than by political jurisdiction, Bright House Networks relied on ZIP+4 codes associated with each of the Franchise Areas to determine the number of DBS

²¹ See 47 C.F.R. § 76.905(f) (Emphasis added). See also *Time Warner Entertainment Co., L.P. et al. v. FCC*, 56 F.3d 151 (D.C. Cir. 1995) (holding that the subscribers of all MVPDs, other than the largest MVPD, may be aggregated to satisfy the 15 percent threshold).

²² Verizon's "comparable" channel line-up is set forth in Exhibit 3.

²³ Bright House Networks obtained Verizon's subscribership data for the New Port Ritchey and Zephyrhills Franchise Areas directly from Verizon, and such data was provided to Bright House Networks on the condition that Bright House Networks seek confidential treatment with respect to such information. Thus, Bright House Networks submits Verizon's subscriber figures for the New Port Ritchey and Zephyrhills Franchise Areas as **Confidential Exhibit 4** to this Petition (with a redacted version attached).

²⁴ In contrast to the Competing Provider tallies for New Port Ritchey and Zephyrhills, which include Verizon subscribership numbers, the Competing Provider subscriber tallies in the San Antonio, and St. Leo Franchise Areas rely solely upon data from DirecTV and Dish Network.

subscribers.²⁵ The Commission has previously accepted ZIP+4 codes as “reasonable and sufficiently reliable for purposes of determining the presence of effective competition,”²⁶ and stated its preference for this approach.²⁷

To determine the relevant ZIP+4 codes associated with the Franchise Areas, Bright House Networks contacted Media Business Corp. (“MBC,” now known as “SNL Kagan”). MBC has developed a process to accurately identify the ZIP+4 codes that correspond with the political boundaries of a particular community. This process utilizes enhanced mapping software that correlates ZIP+4 codes with the U.S. Census Department’s “block group” level households. The “block group” measurement is the most precise Census tool available to measure households within a very small geographical area. With this software, MBC was able to identify the ZIP+4 codes that lie within Bright House Networks’ Franchise Areas.²⁸

Bright House Networks next provided the relevant ZIP+4 codes for the Franchise Areas to the Satellite Broadcasting and Communication Association (“SBCA”). SBCA is the national trade association representing the two DBS Providers, as well as other satellite service providers, and it has assumed the responsibility for compiling subscribership data and responding to data requests from cable operators and franchising authorities engaged in effective competition

²⁵ In certain instances, the *entire* 5-digit ZIP code is located within a particular franchise area. In these situations, Bright House Networks used that standard 5-digit ZIP code, rather than the more detailed ZIP+4 analysis, as the additional detail would not provide any greater accuracy.

²⁶ See *Cable One, Inc.*, 18 FCC Rcd. 12792, ¶ 8 (2003), quoting *Falcon Cable Systems II, a California Limited Partnership, d/b/a Charter Communications*, 17 FCC Rcd. 4648 (2002).

²⁷ See Public Notice, “Commission Announces New Standards for Showings of Effective Competition For Cable Service,” 23 FCC Rcd. 12067 (2008); Public Notice, “Commission Clarifies Standards for Evidence of Competing Provider Effective Competition for Cable Service,” DA 09-1361, 24 FCC Rcd. 8198 (2009).

²⁸ See Letter from MBC (explaining ZIP+4 methodology), attached hereto as Exhibit 5.

proceedings. The DBS subscriber number reported in the attached Effective Competition Tracking Report (“ECTR”) from SBCA reflects the total number of DBS subscribers within the individual ZIP+4 codes associated with each of the Franchise Areas.²⁹

Finally, Bright House Networks compared the subscribership figures reported by SBCA and Verizon (where relevant), with its own subscribership, and was able to confirm that its own subscribership exceeded DBS and Verizon subscribership in each of the Franchise Areas that qualify for effective competition under the Competing Provider Test – New Port Ritchey, San Antonio, St. Leo, and Zephyrhills. Bright House Networks is the largest MVPD in these Franchise Areas.

To determine whether DBS subscribership exceeds the statutorily mandated 15 percent threshold in the Franchise Areas, Bright House Networks compared the competing providers’ subscribership to the most recent U.S. Census occupied household unit figures for the communities.³⁰ This comparison yields the penetration rates for DBS Providers in the Franchise Areas.

As detailed in **Confidential Exhibit 8**, the subscriber penetration rates for the Competing DBS Providers in the San Antonio, and St. Leo Franchise Areas exceed the 15 percent threshold required under Section 623(1)(1)(B) of the Act. Likewise, the *aggregate* subscriber penetration rates for the DBS Providers and Verizon in the New Port Ritchey and Zephyrhills Franchise

²⁹ See **Confidential Exhibit 6**. This exhibit includes all of the relevant ZIP+4 data relied on in the Petition and the total ZIP+4-based DBS subscribership for each of the Franchise Areas. Bright House Network is providing a redacted version of this exhibit, which excludes the DBS subscribership numbers corresponding to the New Port Ritchey and Zephyrhills Franchise Areas, in order to present the *aggregate* DBS and Verizon subscriber penetration figures and still maintain the confidential nature of the Verizon subscribership tallies for these communities.

³⁰ See Exhibit 7.

Areas, far exceed the 15 percent threshold.³¹ Accordingly, Bright House Networks meets the second prong of the Competing Provider Test in each of the Franchise Areas.

Because Bright House Networks meets both prongs of the Competing Provider Test for the New Port Ritchey, San Antonio, St. Leo, and Zephyrhills Franchise Areas, it faces effective competition in these Franchise Areas.

CONCLUSION

Bright House Networks' cable system is subject to effective competition in the Franchise Areas under the Competing Provider Test. Thus, effective competition existed in the Franchise Areas at least as of the filing date of this Petition. Based on the evidence presented herein, Bright House Networks respectfully requests that the Media Bureau issue an order

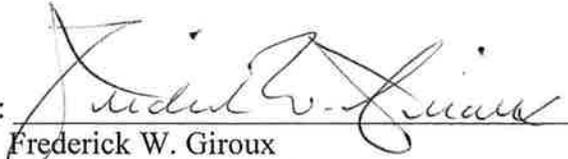

³¹ See **Confidential Exhibit 8**. This exhibit includes the DBS subscribership and penetration figures in the San Antonio, and St. Leo Franchise Areas, and the combined DBS and Verizon subscribership and penetration figures for the New Port Ritchey and Zephyrhills Franchise Areas. As noted above, at Verizon's request, Bright House Networks is seeking confidential treatment with respect to the Verizon subscribership data for the New Port Ritchey and Zephyrhills Franchise Areas. Accordingly, Bright House Networks is providing a redacted version of this exhibit, which excludes the DBS and Verizon subscribership numbers associated with the New Port Ritchey and Zephyrhills Franchise Areas, in order to present the *aggregate* DBS and Verizon subscriber penetration figures and still maintain the confidential nature of the Verizon subscribership figures for these communities.

To Whom It May Concern:

Media Business Corporation ("MediaBiz") utilizes a multi-step process to accurately identify cable client franchise areas and associated ZIP and ZIP+4 Codes. (A ZIP+4 Code includes the five digits of the United States Postal Service ZIP Code, a hyphen, and four more digits that determine a more precise location than the ZIP Code.)

MediaBiz developed this methodology to address the potential shortcomings in utilizing 5-digit ZIP Code data for "Effective Competition" petitions. This basic methodology has been in place for several years and has been used successfully in many Effective Competition cases at the FCC.

Because ZIP Codes and municipal boundaries are created and managed by different government authorities, the boundaries of ZIP Codes and municipal boundaries often overlap. ZIP Codes frequently span between and beyond municipal boundaries. ZIP+4 Codes, however, usually reside in one and only one municipality. MediaBiz uses Place, Minor Civil Division (MCD), and County boundaries from Dynamap®, a division of Pitney Bowes Business Insight, to determine municipal boundaries. MediaBiz uses the Dynamap® ZIP+4 Centroids database, which contains ZIP+4 centroid correspondence for virtually all deliverable ZIP+4s, to identify ZIP+4 Codes within municipal boundaries, among the over 60 million ZIP+4s in all 50 states, DC, and Puerto Rico, based on current data from the USPS and the U.S. Bureau of the Census, and the Tele Atlas master street database.

MediaBiz then utilizes its ZIP+4 Code mapping to enable our clients to obtain proper "Direct-to-Home" (DTH) subscriber counts for their respective franchise areas by tracking DTH subscribers at the ZIP+4 Code level. (Where MediaBiz determines that a ZIP Code falls entirely within a franchise area, however, it is unnecessary to identify DTH subscribers at the ZIP+4 Code level for that 5-digit ZIP Code. In these instances, MediaBiz identifies such 5-digit ZIP Codes and, accordingly, DTH subscribers are identified by the 5-digit ZIP Code only.

Only ZIP+4 Codes that meet specific criteria are included in this report. The following criteria must be met:

- The centroid of the ZIP+4 Code is within the franchise area; and
- The USPS ZIP+4 Record Type (from Dynamap® ZIP+4 Centroids) is either H - high-rise or S - street

Our methodology has been used by many multiple system operators (MSOs) as part of their Effective Competition relief efforts, and we believe this methodology produces the most accurate and detailed view of ZIP+4 data as it relates to cable franchise areas.

Methodology: Direct-To-Home (DTH) subscriber data reflects aggregated DIRECTV and DISH Network residential subscriber totals. The following data collection procedures are applied by Members in the normal course of business: a) single accounts with multiple receivers are only counted once; b) commercial and test accounts are not included; c) each occupied unit served in a multiple dwelling unit building has been counted as a separate residential subscriber; d) zip codes are taken from service locations (not billing addresses, where different); e) inactive accounts are routinely removed; f) invalid (undeliverable) addresses have been corrected where known; g) courtesy or complimentary accounts are included; and h) zip code information for Members' subscribers is periodically updated to reflect changes to zip codes by the United States Postal Service.
